

precut.foam SI | foam insert for bw.cases

Description

- Customized solution for every application
- available for bw.case PP.41-PP.709 and PP.1570
- Individually customizable cube foam: pre-cut elements can be easily removed – for precise protection of cameras, drones, tools or sensitive electronics
- Dimpled foam in the lid additionally secures the contents and ensures a stable fit
- Additional floor layer acts as a damping protective buffer in the event of vibrations
